MEMORANDUM FOR: Mr. Eugene P. Kiefer

SUBJECT : Project [REDACTED]

Sometime ago I was advised (I think by [REDACTED] that there was a collection of technical papers bearing on possible [REDACTED] designs. These papers are to be found in the record of an NACA conference on high speed aerodynamics held at Ames, March 18-20. I of course forgot to note the year but believe it must have been 1957. The classification of this document is "Confidential". I would suggest that we obtain a copy from NACA for whatever interest it may have.
